Centrally Sponsored Fodder Development Scheme - Grass land and Grass Reserve (GLGR)

The scheme will enable improvement of degraded grass land and vegetation cover of problematic soils like saline , acidic and heavy soil due to rapid Industrialization . Under this programme the specific grasses & Legumes will be identified for particular type of soil so that a vegetation cover may be provided which will not only give additional quantity of fodder but will also protect the land from soil pollution and erosion .

For this purpose Gochar land has been selected at Bausenpali in Bhikampali G.P. of Jharsuguda District having a patch of 20 acres. The proposal has been approved by the Director of AH & VS Orissa Cuttack and work has already been started . A sum of Rs 260900/- has been spent so far out of Rs 850000/-. The letter has been moved to the Collector & District Magistrate, Jharsuguda through the Tahasildar, Lakhanpur for obtaining permissive possession.

User Charges

| Sl No | Sources of collection of user charges | User charges collected up to previous month | User charges collected during the month | Progressive Total | User charges deposited in to the appropriate head of account |
